THE FORD INTEGRATED DIAGNOSTIC SYSTEM (IDS)

The Ford IDS and the Vehicle Communication Module II (VCM II)

The VCM II is a direct replacement for the VCM offering additional benefits and a lower cost of ownership over the current VCM. Enhancements have been made to the IDS software to integrate the VCM II and allow both VCM and VCM II to function with existing IDS PCs and VMMS.

The VCM II offers:

- The VCM II is designed to have comparable vehicle and model year coverage to the current VCM.
- All VCM II's will operate as a Customer Flight Recorder (CFR) with an optional pendant cable to replace the functionality of the Vehicle Data Recorder (VDR).
- Industry standardized J1962 Data Link Connector (DLC) and USB cables allow the user to realize a lower cost of ownership compared to the VCM.
- Includes enhanced 802.11 wireless that minimizes dependencies on service department wireless infrastructure.
- Improved durability.
- SmartPower Management system to protect the VCM II in extreme environments.

Integration with IDS:

- New wireless software integrated with IDS installation package.
- Wireless functionality preferred for all IDS functions including module reprogramming. USB wired connections are only required to update the VCM II loaded code and to set up the VCM II to function as a Customer Flight Recorder.
- CFR option added to provide legacy and future vehicle coverage.

Accessories:

164-R9806

CFR pendant only.

164-R9801

DLC cable only.

164-R9801

164-R9806

164-R9805 Includes VCM II, VCM to Laptop cable, USB wireless cards, and DLC cable *software license sold separately

164-R9805

164-R9509 Panasonic® Toughbook

164-R9509

164-R9807 Includes all contents of **164-R9805** plus **164-R9806** CFR kit

164-R9805

164-R9806

164-R9800 Includes contents of **164-R9807** plus a CF19 Panasonic Toughbook **164-R9509**

164-R9805

164-R9806

164-R9509

* VCM II can be used with any PC meeting the minimum specifications shown on www.motorcraftservice.com which also has a valid IDS software license subscription. The Panasonic Toughbook above is recommended. IDS software licenses are sold separately from the VCM II. To purchase an IDS software license, visit www.motorcraftservice.com and click on Diagnostic Tool Support.
